Official Public Certificates — For European Market Use

Certificate of Analysis (Summary)

This certificate presents a summarized version of the analytical results for Rock Phosphate (Natural, Grade 26% P_2O_5). The product was tested by an accredited laboratory and verified to conform with the declared specifications.

Phosphorus Pentoxide (P_2O_5)	26.33%
Calcium Oxide (CaO)	43.1%
Silica (SiO_2)	13.3%
Fluorine (F)	2.6%
Citric Acid Solubility (2%)	≈ 38%

All analyses were conducted in accordance with international standards for agricultural raw materials.

The product meets EU safety and quality requirements for fertilizer production.

****Note:**** Product classified as *Grade 26% Rock Phosphate*, with a typical P_2O_5 content of ****26.33%****, verified by accredited laboratory analysis.
